PROFILE

BSIT graduate with hands-on experience developing database-driven web applications using PHP, Laravel, and MySQL through academic and personal projects. Currently training in Java, Spring Boot, Swing GUI development, database integration, and SQL. Also experienced in WordPress website support, plugin and theme management, Cloudways maintenance, troubleshooting, and client website updates. Seeking an entry-level Software or Web Developer role where I can apply my programming skills and continue developing production-ready applications.

EDUCATION

Bachelor of Science in Information Technology
Pateros Technological College
August 25, 2025

PROFESSIONAL TRAINING

Java Programming NCIII - Center for International Industries Competence (Tesda)

- Center for International Industries Competence Corp. (CIICC) TESDA CERTIFICATION
- 2026 – Present
- Java Programming fundamentals and Object-Oriented Programming
- Java Swing GUI development
- Spring Boot application development
- Database integration and SQL
- Currently developing a Java-based Banking System as a training project

Amazon Web Services - Cloud Practitioner

PROJECT

TRIPAC Database Management System
Laravel 12 | PHP | MySQL | Tailwind CSS
Project: tripacdb.com

- Developed a database-driven web application using Laravel 12, PHP, and MySQL.
- Implemented authentication and role-based access control.
- Developed CRUD functionality for chapter and member management.
- Designed relational database structures using migrations, relationships, and seeders.
- Implemented data validation and administrative workflows.
- Developed responsive interfaces for managing organizational records.

RFID & Face Recognition Attendance System (Capstone Project)
Python | Raspberry Pi | Flask/Django | RFID | Face Recognition

- Developed an automated attendance monitoring system integrating Raspberry Pi hardware and web-based software.
- Integrated RFID authentication with face recognition for additional student identity verification.
- Developed attendance monitoring and dashboard functionality for professors and students.
- Implemented attendance logging and entry/exit monitoring.
- Integrated SMS notifications for attendance-related events.

WordPress Website Development
WordPress | HTML | CSS

- Customized WordPress websites based on project requirements.
- Managed plugins, themes, content, and website configuration.
- Assisted with website maintenance and troubleshooting.

ADDITIONAL PROFESSIONAL BACKGROUND
